[ ]	<i>Rana septentrionalis</i>	Mink frog
[ ]	<i>Rana sylvatica</i>	Wood frog
<b>Caudata/Ambystomatidae</b>		
[ ]	<i>Ambystoma laterale</i>	Blue-spotted salamander
<b>Caudata/Salamandridae</b>		
[ ]	<i>Notophthalmus viridescens louisianensis</i>	Central newt
Report Species Count: 15		

\*Documented occurrences of the species in the park or in the adjoining region of the park give reason to suspect that it probably occurs within the park; however, current, verifiable evidence is needed.

## Voyageurs National Park (VOYA)

### Species Checklist

The species listed here are assumed to be 'present in park.' Evidence, in the form of a current, verifiable reference, voucher or observation, is included in the NPSpecies data system or is readily available. Those species marked with an asterisk have the designation of 'probably present,' and efforts are underway to obtain current, verifiable evidence to elevate the status to 'present in park.'
